There have been thousands doubtless, who suf-fered disease to destroy their happiness here, and even life itself, rather than resort to the use of what are generally styled "Patent Medicines;" no matter what health-improving virtues these may have possessed. Accustomed to hear a cry against these remedies, they choose to deprive hemselves of the happy benefits they might have received from them, and vainly endeavor to bolster np their falling condition by the ordinary pations of the day, which were less efficient, though pernaps more fashionable and costly.
